

For Immediate Release

Note to Editors:

Are you able to participate in a MEDIA ONLY Scooter Race through MEDiChair's multi terrain obstacle course?

MEDIA ADVISORY

**Cambridge area residents and health care professionals
are invited to MEDiChair Cambridge's Mobility Rodeo May 26th**

Cambridge, Ontario (May 15, 2009) -- "We have been waiting for the right opportunity to showcase our new store that we moved into last fall," says MEDiChair Cambridge owner David Parton . "We thought the Mobility Rodeo would be a great way for Cambridge and area residents to drop by our store to see our full capabilities in the home medical equipment sector and enjoy a free BBQ at the same time."

"Visitors can test their driving skills with the newest battery powered scooters (three & four wheels) and power wheelchairs on a multi-terrained obstacle course. I think participants will be impressed with the capabilities of these scooters and power chairs."

Parton explained that MEDiChair is showcasing several innovative vehicle modifications designed for transporting scooters, wheelchairs and people with mobility challenges. Among those on display will be side and rear entry low floor mini-van conversions. The conversions were done by Creative Carriage, a Cambridge manufacturer of accessible and speciality vehicle conversions.
